

WILDERNESS SURVIVAL KITS

You'll find Survival Necessities in this handsome hipster.
For Camping, Fishing, Biking or Travel.

Hikers or outdoorsmen should never venture into the Wilderness without an Emergency Blanket in their back pocket. Even though common sense should prevail, reports of lost hikers who had to spend a night or two out in the elements without any Survival Blanket, Whistle, Fire Starter, Water or Compass are all too common.
Talk about a Vision Quest!
